The Erf lorry is a British heavy goods vehicle that has been in production since 1933. The lorries have been used in a variety of applications, including construction, transportation, and military operations. In the popular video game series Grand Theft Auto, the Erf lorry is driven by the protagonist Carl Johnson in the game Grand Theft Auto: San Andreas.

## History of the Erf Lorry

The Erf lorry was first produced by the English company Errington & Sons in 1933. The company was founded by two brothers, John and James Errington, who had previously worked as blacksmiths. The Erf lorry was initially a small, three-wheeled vehicle that was used for transporting goods around the local area.

In 1948, the Erf company was acquired by the Leyland Motor Corporation. Under Leyland's ownership, the Erf lorry underwent a number of changes,

including the addition of a fourth wheel and a more powerful engine. The Erf lorry also began to be used in a wider range of applications, including long-distance transportation and construction.

In 1986, the Leyland Motor Corporation was acquired by the Paccar company. Paccar continues to produce the Erf lorry today, and the vehicle remains a popular choice for a variety of applications.

## **Models of the Erf Lorry**

There have been a number of different models of the Erf lorry produced over the years. The most popular models include the EC, ECX, and EC8.

- The EC was the first model of the Erf lorry, and it was produced from 1933 to 1952. The EC was a small, three-wheeled vehicle that was powered by a 1.5-liter engine.
- The ECX was introduced in 1952, and it was a larger, four-wheeled version of the EC. The ECX was powered by a 2.0-liter engine, and it was capable of carrying a payload of up to 5 tons.
- The EC8 was introduced in 1968, and it was the largest and most powerful model of the Erf lorry. The EC8 was powered by a 6.0-liter engine, and it was capable of carrying a payload of up to 8 tons.
